

ISO/IEC JTC1 SC25 WG1 BEIJING – September 2009

Liaison from TC 79
(Alarm systems)

Luc BARANGER

FÉDÉRATION FRANÇAISE DES
INSTALLATEURS ELECTRICIENS

PT 11 - IEC 60839-11

- 60839-11 **Electronic Access Control Systems**

The process being used for the work is Conceptual Model that is based upon :

- terminology,
- on functions to be considered and setting a list of minimum requirement to be filled in.
- would the document contain either products or protocols? for the moment one document would contain every part excluding the installation part.

PT 11 - IEC 60839-11

- the Chairman proposed to the delegates that the new WG on Access control will express their need in terms of transmission of access control information and data to the CCTV transmission group (for incorporation with the future transmission standard (see CCTV topic)).

PT 11 - IEC 60839-11

- After a short discussion, the following decision was agreed by all delegations:
- To set up a Working group in charge of the work started within the PT 60839-11.
- - The new Access Control Group is replacing PT 60839-11 which was disbanded.
- - Mr Dan Nita from Canada was appointed Convenor for this new WG.

PT 11 - IEC 60839-11

- **Terms of reference for the Access Control WG:**
To produce IEC standards for Access Control taking into account :
 - the system approach,
 - the equipment requirements and testing,
 - the installation and use of access control system.

CCTV

- 3 NWIPs to be circulated in IEC in order to publish three first IEC standards on CCTV.
- **A CCTV requirements document.**
 - **An IP video transmission protocols document to be produced in order to provide a worldwide standard.**
 - **Analog digital video interface document.**

CCTV

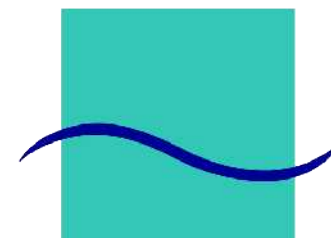

- To set up an ad-hoc group in charge of CCTV coordination preparing 3 proposals to be circulated to NCs.
- In order to avoid redundant work with existing standards published either in UIT or ISO the ad-hoc group will consider how to use and refer to existing standards for application in IEC TC79.

CCTV

It was noted that the China National Committee had circulated since 2009-05 a 79/257/NP on the following subject:

Surveillance Video and Audio Coding Specification.
